Comments From Attendees

"The class was very thorough for childhood immunizations and provided excellent resources to get further information."

"This was a wonderful class. I think all nurses who give immunizations should have to attend this class."

"Very good, informative presentation - was just what I was looking for."

"Speakers were very good and very good at explaining things if anyone had a question - Thank You!"

"Excellent presentation, I learned some facts that even the CDC program last month didn't include."

"I didn't know what to expect when I got here and wondered if I really needed to be here, but I learned so much. This was most helpful."

"Information was presented in a very informative manner and was easy to understand. The training class was very helpful and thank you for your time."

"Information was current, documented and relevant to current practice."
